PROJECTS BUILT

Late-Comers-System , Agnel Polytechnic

[Link](#)

Built a Late Comers Attendance Management System using Next.js, React, Firebase, and Tailwind CSS for automated attendance and fine tracking. Implemented barcode attendance, payment management, report generation, and Google Sheets/Excel integration for efficient college operations.

APV Resonance 2026 Website

[Link](#)

Developed APV Resonance 2K26, a responsive event management platform using React, TypeScript, Vite, and Tailwind CSS. Implemented event registration, interactive UI, animations, dark mode, and performance optimizations with scalable, accessible frontend architecture.

APV Zest 2026 Website

[Link](#)

Developed Zest25, a sports and events management platform using React, TypeScript, Tailwind CSS, Node.js, and Express. Implemented event registrations, Razorpay payment integration, Google Sheets sync, responsive UI, and performance optimizations for scalable event management.
